No bother what all of them do  
Live it up  
To much a chattie chattie them do  
Talk the talk  
See rebel youths were meant to  
Spread it out  
Still them can't but them try  
No bother what all of them do  
Live it up  
To much a chattie chattie them do  
Talk the talk  
See rebel youths were meant to  
Spread it out  
Still them can't but them try  
Hold a grudge against I

I hurt you screaming out loud we commercial  
Shots are verbal, virtual to nurse you  
We celebrated because the value now has elevated  
A permanent fact the underground buzz vaporeded  
The luggage has changed the travel remains  
The more original we came the more power we gained  
Now we shower on your cowards that will never  
maintain  
Just a new formula arranged we never switched lanes  
A little action on the snaredrum pattern, the drums  
attacking  
A draggin' bassline, howling guitars and piano stabbin'  
Expend from my Dutch network to Hamburg  
Analyze this revolution kid it is handsworth  
And of course the lord protect us from falling  
Ain't we all and same  
It's first falling and it seems we are walking again  
From rockbottom now we got something  
We never give it up we live it up and still

Chorus

A lot a labba labba talk them already start fi run there  
mouth  
Don't know how things a gwan but still them every  
where about

Where I see some try to use me like a dummy handing  
out  
Me dun seen a couple of them so me just steady check  
them out  
A lot of friends them no friends try to ride like a trend  
Fishing for a dollar lend just to come back again  
Me no greedy man but me no like no cheeky man  
Hypocritical like them a work for Babylon so

Chorus

We never claimed rasta we're just reggae lovers  
And from the first stone laid we were hiphoppers  
And now the game changed a bit  
You're hearing our name in your crib  
Fronting on your moms because she is singing our hits  
Hate to see your sister screaming when she is  
grabbing my wrist  
Hate to hear your daddy tell you what real music is  
So how your still in denial while we're climbing the list  
The problem is we just don't quit  
Live it up

See them try always these pacified fools  
But them can't overrule what we do  
Sin

Chorus
