Chorus

My hearts foolin' me  
My mind wont let it be  
I'm trying not to fall  
Try to give it all  
These things find a way  
Get stronger by the day  
Inside Im victimized  
Your spell I can't describe  
My love

I'm victimized by this emotional robbery  
It took me heartless Im involved falling in love  
regardless  
It drugged me with a different charm  
I rest my head on her arms and fall asleep woke up at  
early dawn  
She might inspire my way of life  
She cooked me breakfast impressive red chicken with  
a different spice  
it's just a small thing my belly start crawling could this  
be the one moms  
I can hear my seeds calling  
She reminds me of a Faraos daughter  
Tripping trapped in her aura dazed flipping I abort the  
chase  
Is it the way she kicked it a single touch made me lifted  
Made me gifted explicit every time I visit  
The one I need might as well fits to my believes  
So indeed supports me and my goals to achieve  
We spend months having fun and dissin' all my  
groupies  
I showed her restaurants hold hands went to the  
movies  
A dog can be a dog you got to leave him alone  
See if you satisfied you will fix a life of your own  
You are victimized face the world he got a place he  
calls home  
When he decides he feels grown, come on

Chorus

Im catching raw vibes for mixing my love with your  
pride  
Cause every time I travel my feelings I need a  
tourguide  
It's like we all slide this happens all my life  
Is it my aura that will warn ya I inform ya now it's all  
right  
Things done change since the fire lit up  
I saw many of my men and women friends split up  
How the hell do you think I was blessed for doing my  
thing  
I need cash we manifest to build flashing our rings  
Girlfriends impressed they thrilled because all their  
facts is real  
Whispering moms is listening visiting to cook meals  
By the time I reach an older age I invest in real estate  
Cause there aint no man like the one I am so far your  
realest date  
You can have the whole world but it's permanent  
Or you can have me like your apple without the worm in  
it  
See my love is mega some of my gestures in a large  
measure  
Even when I am dead broke stick out my heart it be a  
large treasure  
Moi, plaisir s.v.p. grand majeur  
Ambassadeur de l'amour present grandeur  
Mark my words dogs don't bite but it hurts  
They bite ya life is survival get my job done first

I'll try not to sin but Im falling again  
Oh God, Im a victim  
My heart is loosing it  
My mind is fooling me  
Emotion no longer hidden  
Of course these things will find their way  
Love grows stronger by the day I say  
I'll try not to sin but Im falling again  
Oh God, Oh God, I am a victim

Chorus

Some will starve just to try to get involved with your life  
They wont release you till the earth cried the heaven  
strikes  
Bring weapons to the fight it's up to men to defend his  
own pride  
See when seeds clash from ground honey it wont grow  
wide  
Living a stone cold life we held tight to fake memories

We done spoken of no we aint the same breed  
So when the rain leaves main reasons live in grief  
Your whole life your victimized forever thinking of me  
Chorus
