All I wanna do is wake 'm up  
(wake 'm up)  
Tell 'm the leave yours, wake 'm up

Do out and get yours  
(wake 'em up)  
I said do out and get yours

Hold 'em up and avons vons, there's too point on  
Step round around but that girl calls, there's too point  
on  
As long as you know the name, can get my new bos  
close  
As long as you know the brevis cake, can get my new  
bos close  
Listen, a few call me a few bone maybe  
Some believe that somehow somebody a few bone  
inherit  
Roman no man in pain, roman no man sweets slanes  
Roman no man just you and I believe , trying to build  
some pages  
We can go there, I don't know where, just long standing  
some maiden  
Just tomorrow, future perform to burn some money  
Learn to turn around where no one hit to same old the  
trace  
'Cause snap off this and back to get the same old love

All I wanna do is wake 'm up  
(wake 'm up)  
Tell 'm the leave yours, wake 'm up  
Do out and get yours  
(wake 'em up)  
I said do out and get yours

All I wanna do is wake 'm up  
(wake 'm up)  
Tell 'm the leave yours, wake 'm up  
Do out and get yours

(wake 'em up)  
I said do out and get yours

(Wake 'm up ah, wake 'm up ah, wake 'm up ah)  
(Wake 'm up ah, wake 'm up ah, wake 'm up ah)  
(Wake 'm up ah, wake 'm up ah, wake 'm up ah)

Built it up to get paid off and didn't work 'cause we all  
been afraid  
Don't complain, just steak a folk, but every sense it you  
dinner place  
Live life and go get yours, when clump around all my  
pet falls  
Been all bravos so many years, got love to live 'cause  
I've lived ford  
Don't move, no better, live no better, merge of the  
flower we stay together  
I mean some money, my yummy hell, since I got these  
were rich forever  
Since I got gob we're rich forever, you don't know to  
heal to get me well  
Got no many brain, we got to win all back, I'm a feed  
got a beat  
Then can start really truths
