Money makes the world go round The world go round, the world go round Money makes the world go round It makes the world go round

Money makes the world go round The world go round, the world go round Money makes the world go round It makes the world go round

Money makes the world go round The world go round, the world go round Money makes the world go round It makes the world go round

We' re in the money
We' re in the money
We' re got a lot of what it takes to get along
We' re in the money
We're in the money
Old man depression you have really done it wrong

You'll never see a headline about a breadline today And when we see a deadline we can look that gry right in the eye

We're in the money, come on now honey Let's spend it lend it send it rolling along Let's spend it lend it send it rolling along Let's spend it lend it send it rolling along

{Instrumental}

People will steal from their mother
People will rob their own brother
People can't even walk the streets
Cause they, never know
Who in the world they're gonna meet
For that mean
Oh mean, mean greed
Almighty dollar

People will lie they will cheat
People dont care who they rob or beat
A woman will sell her precious body
That small piece of paper
Sure carries a lot of weight
For that mean, oh mean, mean greed
Yeaaaah!
