His name was cursed  
Damned for eternity  
So he bowed down to the light  
Hoping it would set him free  
For years he walked  
Among the angels  
For years he thought  
They would have the answers

But seeds of evil  
Plant strong and poisoness roots  
And as the time passed by  
The heavens saw the serpentine  
And so their fear was born  
And so they kept away  
With scornful eyes they left him behind  
Out cold to decay

He became so full of wrath  
In a frustrated state of mind  
Every attempt to win their hearts  
Would leave them full of scars  
And so the heavens wept  
And so the angels cried  
With torn and bleeding wings  
One by one fell from the sky

They were like lambs  
Lambs sent to slaughter  
Just standing still and waiting  
For the wolf's hunger  
To drain a part  
Of the mighty river  
The river of his damnation  
The black flowing curse

So now he wanders  
Through eternity alone  
Himself is his only home  
Morbid,evil,twisted home  
He shall never find his peace  
He's a plague,he's a disease

He shall bring you down on your knees  
If your paths shall cross
