Abused by you - can't stand upright  
So dead tired - awake in the night  
Fake my world - state of confusion  
Waste my time - I'm forced to comply

Open your eyes  
See through the dust in your sight  
Something like truth in disguise  
The door is open wide  
Feelings get lost in your mind  
The curse of the moment remains

Selfish life - only illusive  
Sense of sight - a man with a child's eye  
Instant fall away  
Live my life the way it's meant to be  
Take my soul  
You fake my world and waste my time

You make me wan to die

Open your eyes  
See through the dust in your sight  
Memories they melt in your mind  
The door is open wide  
Feelings get lost in your life  
The curse of the moment remains

End the fight - stand aside - take me as I am  
My hands are tied - I stake my life  
To open up my eyes  
Get me now - make-believe  
Save me from the fall  
You take my soul - you fake my world  
And waste my time - won't leave me as I am
