I know a place  
There are three hills  
Ever since I live

They're watching me  
They're watching you  
And they always admonish

They were there  
In a time long ago  
Still they stand up there

They have seen  
All the trouble which we know  
But the wheel of life  
Is still there

If you feel depressed and down  
Come to these hills  
And open up your mind

Think about how old they are  
Feel, all your trouble has gone so far

Soon your problems will go away  
You'll feel better every day

Chorus:  
If you don't know what to do  
A solution is there for me and you

Come to the three hills

They got power, they got might  
They stand there through day and night

Use these three hills

Now you are here

Look at these hills  
See how tall they are

You're so small  
Beneath these hills  
No matter who you are

You can be a beggar  
Or a king  
In front of them  
You're just a man

There is nothing  
You can lose or you can win  
You just can see we are all the same

If you feel depressed and down  
Come to these hills  
And open up your mind

Repeat chorus

You are asking me  
Where are these hills  
I will tell you my friend

They're in your heart  
And in your mind  
They're with you until the end

They are just  
A synonym for your might  
The might which is inside of you

You just have to  
look inside of you  
Find these hills  
And you'll learn to use

The three hills
