You see the fire  
It's burning bright  
The pungent smoke comes near

Turn up the radio  
And listen to  
Don't know what's happening here

They say "Don't Fear"  
It's so harmless  
Everything is under control

Just close your windows  
And go to sleep  
Tomorrow it's all over

See  
See the writing on the wall

Read  
Read the answers to your calls

Tschernobyl in Russia  
Don't get scared, it's so far  
Radiation is not so high

Schweizerhalle in Switzerland  
Just a little fire man  
Panic? No, I ask you why

They are poisoning our water  
Creatures die, it doesn't matter  
It's so sad that they can't cry

Chemistry in our food  
Never eat, don't be a fool  
If you do, you surely die

Just a mistake  
Not so bad  
But these people  
They will die

Contermination  
A new disaster  
They all do what they want

You feel the panic  
It's creeping near  
They sure would have their fun

They feel important  
We are just scum  
In their eyes we're all fools

See  
See the writing on the wall

You must strike back  
With your own mind  
You've got to defend your life

Never give up  
Don't let them win  
Everyone want to survive

You try to stop them  
Without success  
You can't do anything alone

But all together  
We have got a chance  
Together we are strong

See  
See the writing on the wall

"Dedicated to all the creatures who died  
Because of the chemical disaster in Schweizerhalle  
Basel I.II.1986..."
