Obsessed by an idea of love  
You know it's a sudden death

Don't care what all the legends say  
She's taking last breath

See her smiling  
She;s fine  
Feel her twisting  
Your mind

Now she turns show her face  
You will kill the things you've praised

Imagination that's all misery

Just can't believe this is real witchery

Ziita

See her smiling  
She's fine  
Feel her twisting  
Your mind

now she turns to show her face  
She will kill the things you've praised

Imagination that's all misery  
Just can't believe this is real witchery
