I'm partly happy and part confused  
I've been a victim but never foolishly abused  
And with conviction you blamed it on your life's excuse

So you had to be the big man  
You know you had no balls as a friend  
And now you're shocked that  
I feel like I'm losing you  
And I'm mentally bruised by you

It's been a pleasant experience  
I won't forget all the things you tried to be once  
Your situation is only caused by your reluctance

So you had to be the big man  
You know you had no balls as a friend  
And now your shocked that  
I feel like I'm losing you  
And I'm mentally bruised by you

[Guitar Solo]

And so you had to be the big man  
You know you had no balls as a friend  
And now your shocked that  
I feel like I'm losing you  
And I'm mentally bruised by you  
And I . . .  
And I . . .  
And I . . . feel like I'm losing you
