Serenity is the place that you take me
Violence around you strangles my oxygen
When you violate yourself with those
Things you call
Tools and treasures
YOUR PAIN BRINGS PLEASURE TO MY CAVITY
Starving hyde of this shit called jealousy
YOUR EYE'S GLEAM AT ME WITH NAUGHTY PROBES
Hooker can't take your eye's off of me
SEX, PAIN, AND VIOLENCE
That's all you want from me
So you caught me with somebody else
Take a look in the mirror sometime
You'll seem to see I look a lot like you
Fucking around this
Weaving road of shit.
DECEIT AND LIES, WHAT ELSE WILL IT TAKE
For us to destruct the colliding force
THAT KEEPS US ENTANGLED TRAPPED TOGETHER
Like two lovers lost on a murderous honeymoon
