(Powderfinger/Coghill/Fanning)  
He's at you again ray  
Testing out your head space  
No matter what you do  
The money still loves you  
You have fallen down the stairs again  
You might have to take it easy  
Because we love you  
And we respect you  
Because we love you  
And we respect you  
You have fallen down the stairs again  
You might have to take it easy  
He's at you again ray  
He's at you again ray  
He's at you again ray  
Testing out your head space
