We are just the pieces yeah  
Connect yourself  
We are just the pieces yeah  
Connect yourself

See what you can't ignore  
You maybe fall cause something's in your way  
Please just be sure to know  
what hurts you so is never here to stay

Shut my eyes when I'm feeling something  
When your staring me blind  
Shut my eyes when I'm feeling something.  
When I feel

We bleed to pieces yeah. Protect your self  
We bleed to pieces yeah. Protect your self

Breathe cause you can be sure  
there's life in store and somethings on the way  
Need to know more about yourself and all this  
Why you are afraid  
Why are you afraid

Shut my eyes when I'm feeling something  
When your staring me blind  
Shut my eyes when I'm feeling something  
When I feel
