She got goose-egg power-chords
And a nasty 2 & 4, she can rock it
She can tap in 32
She can show you her tattoo - she can rock it

What good's a rock without a roll?
It's a sorry lookin' donut if it doesn't have a hole
She gets so hot, she's infra-red
She can show you a position that's prohibited

She's got kisses like cocaine
She's got access to a plane - she can rock it
Check out her anatomy
In her trashy lingerie - she can rock it

She's got an axe, she's got a rig
You know she'll never miss a beat
And she ain't never missed a gig
She'll pin you down, she'll knock you out
She can wrestle with your ego
'Til your pride goes out

She can rock it

She's a shake that comes with fries
Never listens to your lies - she can rock it
She can set your pants on fire
She can strip you to the wire - she can rock it

She can nail you to a frame
Say that you're the one to blame - she can rock it
She can tell you what to wear
She can strip your conscience bare
She can rock it
