"Shut Up"

Visit "[Shut Up](#)" on MotoLyrics.com

Get 'em off me, get 'em off me

Get their hands and their legs from above me
When you want it and you need it
But you can't seem to quite understand it

Get 'em off me, get 'em off me

Take their legs and their elbows from around me
Schizophrenia don't mean that you're living -
In the world not a dream

I said shut up, you're not incurably I'll
You got the motivation, you got the pill
Don't mess it up, I go down on my knees
Don't blow it big time babe, I'm begging you please

I said shut up

I said shut up
What you complaining about?
You got the tonic money, you got the truth

Don't mess it up
Let's stick together on this
We got everything and more, so baby -
Why should we quit?

I said shut up
