I will protect you
Nothing can hurt you
No storm clouds gathering terrify

I am a mountain
Surrounded by your love
You are a mountain that dreams are made of

We fight for love
We fight for love
Fight for love

Somewhere... somehow... someone
Somewhere... somehow... someone

I fight with fire
As I watch them conspire
To blow my world apart

Between the light
And the endless night
You will always be in my heart

We fight for love
We fight for love
Fight for love
We fight for love

Somewhere... somehow... someone
Somewhere... somehow... someone
