Yeah yeah!

Yeah yeah!

Got myself a notion

One I know you'll understand

Set the world in motion

By reaching out for each other's hands

Maybe we'll discover

What we should've known all along (yeah)

One way or another

Together's where we both belong

(Chorus)

If we listen to each other's hearts

We'll find we're never too far apart

& Maybe love is the reason why

For the 1st time ever we're seeing it eye to eye

If a wall should come between us

Too high to climb

Too hard to break through

I know that love will lead us

& Find a way to bring me to you

So don't be in a hurry

Think before you count us out (oohh)

You don't have to worry

I won't ever let you down

Nothing's gonna stop us now

(Chorus)

If you're ever lonely stop!

You don't have to be

After all this slowly

I'll be there for just you & me

Take a look inside & see

(Chorus x2)
