A murder in the dark  
The convent in the night  
The constable is on the way  
The suspect out of sight  
He trampled down the garden lane  
The mystery has begun  
He signed it by the pentagram  
And now is on the run

Gotta tell you a story, and the story we start right at the  
scene of the  
Crime  
Another murder and tonight he's left in time  
Another victim has gone, another inhuman slaughter  
on the lane of a park  
And still the chief inspector tumbling in the dark

At night I saw him  
Can you recall him?  
And not a soul has called

Murder at midnight  
The enemy on the way  
Murder at midnight  
Will he return with the day?  
Murder at midnight  
The Devil's seed on the way  
Murder at midnight  
And then we tell you to pray  
Midnight!  
Midnight!

He must have done it alone, he is a master of hiding  
and he left not a  
Trace  
And by the moonlight saw the goat shape of his face  
He got an interrogation and they tried hard to break  
him but it couldn't be  
Prooved  
The only trace they couldn't find was cloven hooved

At night I saw him  
The phantom crawling  
And not a soul has called

Murder at midnight  
The enemy on the way  
Murder at midnight  
Will he return with the day?  
Murder at midnight  
The Devil's seed on the way  
Murder at midnight  
And then we tell you to pray

Murder at midnight  
The enemy on the way  
Murder at midnight  
Will he return with the day?  
Murder at midnight  
The Devil's seed on the way  
Murder at midnight  
And then we tell you to pray
