"No Earthly Connection"

Visit "[No Earthly Connection](#)" on MotoLyrics.com

Narcotic
Protection
My body is shining
My fears are declining
Sweet colors in motion
Musical devotion
No earthly connection

Reaching for the stars in the galaxy
Total ecstasy
When I cast my eyes on the dawn-lit skies
Crying out your name over mountains high

I wanna lose myself tonight
Drowning into a sea of light
I drift through temptations and hallucinations
A million explosions
Breathtaking emotions
Erotic sensations
Beyond expectations
No earthly connection
