

Against All Authority "At Our Expense"

We're holding banners and
they're holding guns keeping
our rebellion to a minimum as
we watch them gain behind this
barbed wire fence it's so insane
it's at our expense... and the
media distorts the truth...we
never had a choice we never had a voice you make
decisions
that affect us all you put us in

a position that we don't belong
all of our resources have been spent
and it's at our expense now you're
punching holes in the sky with
plutonium powered rockets that
fly to probe what can be reached and suck it dry...and
it's at our expense
