[Don]

I dont fuck no more
Yeah nigga huuh? huuh?
Killa Cam, H.O.T. Ones huuh?
Flame thrower yeah yeah
Uhh

Niggas remind me of slappin a bunch of words
Darkness swirls, it's 20 niggas brushin curbs
Got the blocks on off nigga cautious style
Yeah you hot but I'm ??? now
Put up the gun in your mouth no more talking now
Shell drips in the back, no more walking now, you
cough for pound
Hitmen, slickmen cant bang with us
Clips & spit 10 nigga aim & bust
Cant discuss, the facts just clutch your mac
Hope your mans got enough heart to bust back
Cant touch you with the words, I'ma let my gat do it
Strap with the clark, infrared attached to it
Long-out scoop see if you can dash through it
Cause when the burner split I'm burning the strip
Through the closeup from my waist, the ? burn on my
hip
What you know about that? 20 deep swormin with gats
Whaaat!?

[Cam'Ron]

Killa Killa uhh
Yo, yo, yo
I know exactly what's wrong with you
And it made me so mad I won't do that song with you
All them niggas over there, they look strong to you?
Guns look long to you?
In fact, give me your change, no longer belongs to you
Or do you stop flirting? Dip the clip in the bar, nigga
pop something
Nigga outside the club you wanna pop something
Now a nigga drive through I got the pop something
Spin out the black gunning, no nigga we not running
Killa got first to count 9 mil', my gun and my

bankaccount

I'm God Divine, im hard to find

I got a gutter mouth its listed nigga

From my baby mothers house

I know you loved her out, dugged her out

I wanna harden your spouse, nigga borrow my mouth

???, bangin for my gun, slangin with my gun,

remaining on the run

RUN RUN RUN RUN RUN RUN RUN RUN RUN RUN RUN RUN

RUN RUN Killa Killa

[Lil' One]

I dont play y'all niggaz, I spray y'all niggaz

Leave bodies roasted, flame y'all niggaz

I dont game y'all bitches, I tame y'all bitches

D-1 told me aim for the riches

A cool kid scared of the big, i heard stories

Locked up in jail, that aint nothing for me

Now you gotta be gunned down to be a legend

One vest, two gats just for protection

Never was a showoff, my guns go off

Kept it in the closet, damn it got to go off

Took it outside, blazed it in the sky

It wasnt just me, it was booze in my house

I feel thugged out, me & you can slug out

Bullets in the field now they coming in the dug out

Shut down the club-house, lock out like NBA

Ya'll niggaz shine cause One been away

Bust out the barrell of a ?? ashtray

So dont ya'll get it wrong

Shots hit your mind & body

Watch the soul drip on when the clip on

Niggaz better get long
