

Pressure Drop **"Take My Hand"**

Visit "[Take My Hand](#)" on MotoLyrics.com

Do you dream of better days
Release the ones who know the truth
Lifted high to see the sun
Stolen child just can't fly
lead us to higher ground
Come as you are
We are designed for life
Don't move away
Just take my hand
It's time right now to make a stand
Love life dream don't look back at what could have
been
Trust, lies, fear, don't be deaf to what you can hear
Have a taste of freedom food
Do you have another my friend?
To protect the lost from where they hide
Searching for the key inside
Come with me, come take my hand
It's time right now to make a stand
Love life dream don't look back at what could have
been
Trust, lies, fear, don't be deaf to what you can hear
Fame, success, wealth, don't make your life the price
of your health
taste, sight, sound, don't let go of what your heart's
found
Trust in the word
