As I was walking out of class
The other day at school
I saw you
Don't think I've ever seen you
'Round here before
You must be new
What's your name? Where are you from?
Our conversation's just begun
Maybe we can talk more after school
I know that we just met but maybe
You'd like to let me
Go out with you

I wanna be with you, I wanna be with you
I wanna be with you, I wanna be with you
I wanna be with you, I wanna be with you
And only you

I got your number from a friend
So I called
To talk to you
I don't live too far
We could walk down to the park
If you got nothing else to do
Being that you're new in town
You probably want to look around
But I could tell you, before you do
'Cause you really mean a lot to me
And you don't have to look no more
'Cause I've found the girl I'm looking for

I wanna be with you, I wanna be with you
I wanna be with you, I wanna be with you
I wanna be with you, I wanna be with you
It's only you, yeah

If I could have any girl in school
I wouldn't take but one
The only girl I want is you

If I could do anything
Anything I wanted to

It wouldn't be too hard to choose

I wanna be with you, I wanna be with you
I wanna be with you, I wanna be with you
I wanna be with you, I wanna be with you
I wanna be with you
