Why are you sleeping my love?  
I swear we don't have to go  
Maybe we will go so far  
Maybe we will see the Sea.

You told me, baby  
That we need an other direction  
After all  
We have to search an other position.

Oh i like to know  
You, breathing near of me  
Oh i like to know  
Me, suffocating in a train.

You told me, baby  
That we need an other direction  
After all  
We have to search an other position.

Where do you want to go?  
I think we're lost in nowhere  
We are both alone  
Maybe this is the right way

You told me, baby  
That we need an other direction  
After all  
We have to search an other position.
