

## Pretty Ricky "Can't Live Without You"

Visit "[Can't Live Without You](#)" on [MotoLyrics.com](http://MotoLyrics.com)

It's 4 o'clock in the mornin'  
And she ain't feelin' right  
I'm on a first class trip  
Through this place called life

I don't know what to do  
'Cause my body's still shakin'  
I know it's time to man up  
And start my education

I need someone to call on  
So I called on my best friend  
I said, "Bro, I can't take it"  
He said, "Boy, stop trippin'"

So I hung up the phone  
Packed my shit and got right  
I know what I gotta do now  
Be a man and face life

Maybe we could work it out  
'Cause you know I can't live without you  
And everytime I think about it  
I know a nigga can't live without you

Ain't no need to cry about it  
'Cause you know I can't live without you  
I even wrote a song about it  
'Cause you know I can't live without you

At the beginnin' you was gone  
I was stayin' with my momma  
I stayed gettin' in trouble, man  
Straight damn, drama

I started dancin' so I stayed out of trouble  
'Cause I stayed in school, sellin' candy so my money  
doubled  
But then you told me man, dancin' was for punks  
Then you told me come and stay  
And you ain't care what I want

You told me come and dance and rap with my brothers  
You taught me how to love  
And how to care for my brothers

And then you taught me all yo hustlin' skills  
Just in case I get alone I know how to pay bills  
You told me I was straight regardless of a deal  
And I love you man for that 'cause you always kept it  
real

Maybe we could work it out  
'Cause you know I can't live without you  
And everytime I think about it  
I know a nigga can't live without you

Ain't no need to cry about it  
'Cause you know I can't live without you  
I even wrote a song about it  
'Cause you know I can't live without you

Now, that I made it, it feel real good  
Take you out the hood  
Put you on B and the block  
In the middle of the woods

And it hard as it seems  
You was there for me  
One bedroom apartment  
On 1604 number efficiency's down in Coverly

And even though I like to cheat  
I'm going a love my Georgia peach  
And that's a promise I'm gon' keep  
To the end, never gone bend

And I can hear you tell yo friends  
And I can see you on a bus  
Not fussin' with yo brand new Benz  
To the world, baby it's yours

I'd give you the world  
'Cause you not no ordinary girl  
I'm yo son, you my ol' girl  
My momma, we shared for 19 years

And from the bottom  
Of my foundation  
I'm telling you how I feel  
And I love ya

Maybe we could work it out

'Cause you know I can't live without you  
And everytime I think about it  
I know a nigga can't live without you

Ain't no need to cry about it  
'Cause you know I can't live without you  
I even wrote a song about it  
'Cause you know I can't live without you

See, I fell in love with ya  
Wanna raise my kids with ya  
But you left me all along with tears  
Drippin' down the picture

I remember the day like yesterday  
May 9th to be exact  
I'd do anythin' to get you back  
Even though I know you ain't comin' back

I'm serious as a heart attack  
Could we get it back the way it was?  
'Cause I know you had some outside  
Influences that pulled a plug

The reality, Junebug, girl I know  
We'll always be together  
I got you locked away deep in my heart  
Always here forever

Maybe we could work it out  
'Cause you know I can't live without you  
And everytime I think about it  
I know a nigga can't live without you

Ain't no need to cry about it  
'Cause you know I can't live without you  
I even wrote a song about it  
'Cause you know I can't live without you
