Lay your body down and let me touch your body
And you know it's goin' down 'cause ain't nobody here
to stop me
And I know you heard about my freaky reputation but
don't listen
To the crowd because you know how they've be hatin'
on me

I know it's been a minute since I spent sometime with
you
But what I wanna do is make you scream out, ooh, ee,
ooh
No need to rush mamma make everything suitable
Gotta let you know this proposition's not refusable

We gonna play this song right here
So you betta get your body in here
Get comfortable and have no fear
'Cause you know it's goin' down in here so

Lay your body down and let me touch your body
And you know it's goin' down 'cause ain't nobody here
to stop me
And I know you heard about my freaky reputation but
don't listen
To the crowd because you know how they've be hatin'
on me

I know you heard about Tamika and Teresa, ooh
Stephanie, Candy, Kalisha, Jasmine and Leslie too
Why don't you tell me, ma look what they got to do with
you
You seem uncertain, ma so why I don't give you a clue

I'll kiss it where tha sun don't shine
After that mami then you do mine
Turn over let me see it from behind
It's gonna get warm in, hurr after this rhymn

Lay your body down and let me touch your body
And you know it's goin' down 'cause ain't nobody here
to stop me

And I know you heard about my freaky reputation but
don't listen
To the crowd because you know how they've be hatin'
on me

Yeah, this your boi young pretty
This right here fellaz for your ladies
(Huh-a)
Watch your gurl dog, for real

Can't nobody do it like I do
(Can't nobody do it like I do)
And no matter what you're thinkin' I'ma be with you
(Babe, no matter)

Lay your body down and let me touch your body
And you know it's goin' down 'cause ain't nobody here
to stop me
And I know you heard about my freaky reputation but
don't listen
To the crowd because you know how they've be hatin'
on me

Lay your body down and let me touch your body
And you know it's goin' down 'cause ain't nobody here
to stop me
And I know you heard about my freaky reputation but
don't listen
To the crowd because you know how they've be hatin'
on me

Lay your body down and let me touch your body
And you know it's goin' down 'cause ain't nobody here
to stop me
And I know you heard about my freaky reputation but
don't listen
To the crowd because you know how they've be hatin'
on me
