Baby girl (Baby girl take ya time)
Baby girl take ya time (baby girl take ya time)
Please don't rush and go (don't rush and go)
I can never let you leave (I can never let you leave)
And I don't wanna have to see you go

[Chorus]

No, No I can't let ya go
No No I can't let you go
No No I can't let you go
No No I can't let you go

See I'm the life of the party
The flashy dude on the scene
I had the way with the ladies since the age of 13
See I go to city to city and its the same ol' thang
Dis girl dat girl so many beautiful queens (yep yep)
Now I can't say that me fighting temptation ain't hard
but I never let another chick to come tear us apart girl
You know you got your name tatoored on my heart
real talk thats how I feel you been my lady from the
start

[Chorus]

Baby girl don't leave I need somebody round here to
help smooth think out
like coming home off the road from touring to a happy
home
see that what i'm talkin bout
see i'm givin you the benefit of the doubt you getting
all mad and got me sleepin on the couch
you trying to get chicken but right here girl you got
steak
stop trying to break up somethin good ya gotta have
faith
cuz its in god's hands plus i'm being a bigger man
and i'm a veteran come on girl give me one mo chance

[Chorus]

You was there before da deal
me and you was like jack and jill
all i wanted was a varsity jacket and a yearbook to
remember the years
see you stopped believing in me when i needed you the
most
but you want a wedding ring the most i propose is a
toast
I was beggin you to stay pleading wit you not to leave
but you left me anyway you knoe that all i could do is
grieve
I thought i needed you thought i couldn't be nothing
without cha
now i'm the one you beggin to because i made it
without cha

ooooo you're in my heart, you're in my soul, you're on
my mind, all the time
you're in my heart, you're in me soul, you're on my
mind all the time

[Course]

No, No I can't let ya go
No No I can't let you go
No No I can't let you go
No No I can't let you go
