Welcome Pretty Ricky
Say a command

Climb on top of me (say a command)
Take it all off (say a command)
Let's make computer love (say a command)
Cause my hard drive's burning up (BURNING UP BABY)

Baby, climb on top of me (say a command)
Take it all off (say a command)
Let's make computer love (say a command)
Cause my hard drive's burning up (BURNING UP girl)

Did you say take my clothes off (oh oh oh oh)
Did you say take my panties off (oh oh oh oh)
Did you say take my clothes off (oh oh oh oh)
Did you say take my panties off (oh oh oh oh)

Spectacular:
I can't believe I got my self in this situation
That computer love got my heart speed racin'
I like to get you hot, hotter than a oven
Know what turns you on like the power botton
When I plug you up, I put it in a socket
Hit you with that hard drive that make you yell stop it
Keep you upgraded, get you new cords
Got so tight I went to meet them other boys
Baby girl I love you and can't noboby tell me that that
aint true
And if I lose you it's like cuttin' a artery
The love of my life you will always be apart me

Chorus:
Climb on top of me (say a command)

Take it all off (say a command)
Let's make computer love (say a command)
Cause my hard drive's burning up (BURNING UP GIRL)

Did you say take my clothes off (oh oh oh oh)
Did you say take my panties off (oh oh oh oh)
