"Everything A Heart Could Ever Want Willow"

Visit "[Everything A Heart Could Ever Want Willow](#)" on MotoLyrics.com

She comes home late / And I've waited long

Then she sings me lines / From the songs I used to sing

When I was young

'Cause she's that kind of girl

A woman child / A free young spirit

In a jaded world / And she knows me

Shows me / Lets me see

She's everything a heart could ever / Want (Willow)

When I call her name (Willow) / Will she still hear me
when

She's everything a heart could ever / Want (Willow)

When she looks at me (Willow) / Her eyes just say it all

She always puts me right / When I turn up wrong

Never walks away / Her smile tells me

I'm goin' on and on and on

It gets real damn hard / To let your children grow

And when you make mistakes / It's the time you got to
let 'em

Know you know you know

I wanna know her / Show her / I wanna let her see

She's everything a heart could ever / Want (Willow)

When I call her name (Willow) / Will she still hear me

when

She's everything a heart could ever / Want (Willow)

When she looks at me (Willow) / Her eyes just say it all

She's everything a heart could ever / Want (Willow)

She's sometimes strange (Willow) / So please, please,
please don't change

It ain't an easy thing / To let a young bird fly

And when they spread their wings / For the very first
time

You just wanna die

Everything a heart could ever want

I know she's everything a heart could / Ever want

She's everything a heart could / Ever want
