Guess what i just figured out.
I hate every single person.
Almost every single soul that lives and breathes and
dies.
We turn away.
I hate everyone.
We are above.
The entire human race is so fucking stupid
And it's times like this i can go through it.
Punch your friend out over shotgun.
Maybe that has meaning.
Or nina who just ignores me for no goddamned reason.
We turn away.
I hate everyone.
It's time i say.
I hate everyone in this whole world has no brain.
And it's times like this you drive me insane.
All the beefcake spoiled obnoxious stubborn sensitive
intolerable.
Superior. i'm above you. i'm better than you.
When i don't like what you said to me.
Wouldn't that be so convenient.
If i just let you get away with everything that i think is
wrong.
