Demoted
I've been demoted
Isn't it true?
I said isn't it true?
Take your own advice
Don't stay unless you want me
You're playing games and I'm still in lust with you

And i heard
You still talk about me
They say you make me feel bad
You wish I'd never existed
Take your own advice
Don't stay unless you want me
You're playing games and I'm still in lust with you

Demoted
I've been demoted
Isn't it true?
I said isn't it true?
Take your own advice
Don't stay unless you want me
You're playing games and I'm still in lust with you
