

Prima Dona "Has To Be"

Visit "[Has To Be](#)" on MotoLyrics.com

Breathe in, breathe out
I say a little prayer
How the gods above
Could be so unfair

Chorus

I know there's someone out there
Waiting for me
There must be someone out there
There just has to be

Go on, go on
Don't sit there like a fool
You've graduated from
A different kind of school

***Chorus* (x2)**

I know there's someone out there
Waiting for me
There must be someone out there
There just has to be

I should be glad that I'm alive
It could have been much worse
I might have never loved at all
And never known what I am worth

How the gods above
Could be so unfair

***Chorus* (x2)**

I know there's someone out there
Waiting for me
There must be someone out there
There just has to be
