

Primal Fear "Battalions Of Hate"

Visit "[Battalions Of Hate](#)" on MotoLyrics.com

Can't believe the things I see
That happens in the state
By a mortal distance, I can't believe
Self-destructive infernal
To save us from the breed
But I know that it is all a lie

Star Wars begin now
His bombs come exploding
Bring back the death of the night
No mercy, he's knowing
How strong he must show us
For the last film you all get a part

Be by my side or you've to die
Believe what I do is the right

Soon armageddon
Last hours are running now
The final solution begins
The words of a madman
No children to tell them
For what they'll not see in the light

Choose by your voice
Kills and destroys
At the end you must die for the night

In earlier chess games
We're playing the part of a soldier
But now we are not qualified
To save our own life

The traps are all placed by command
They are ready to strike
We live and we'll die
By the lies to believe

Try to escape from this suicide dreams
Or past time will come back again
Hiroshima is a joke to that what will come
At the end of the game we all die, die now

Battalions of fear
They search and they scream the American dreams
Battalions of fear
The way of R.R. to show he is the star
Battalions

Star Wars begin now
His bombs come exploding
To bring back the death of the night
No mercy he's knowing
How strong he must show us
For the last film you all get a part

Be by my side or you have to die
Believe what I do is the right

With hands full of blood
He talks about peace
With snake poisoning tongue he's praying
El Salvador and Vietnam
You soon fast forget
But you satisfy on Afghanistan

You've been the master, kill with a laughter
Your screams of peace are wrong and loud
'Cause so we are and here we are

We scream and shout
Your laughing about all the fools
Scream and shout
With power of evil they stand

Try to escape from this suicide dreams
Or past time will come back again
Hiroshima is a joke to that what will come
At the end of the game we all die, die now

Battalions of fear
They search and they scream the American dreams
Battalions of fear
The way of R.R. to show he is the star
Battalions of fear
The way of R.R. to show he is the star
Battalions, battalions
