## "Cold Day In Hell"

Visit "[Cold Day In Hell](#)" on [MotoLyrics.com](#)

We're heading out to nowhere  
Cruisin' on total speed  
The only chance was  
To exterminate the breed

Up to the minute  
We can lose this fight  
Every day another mission  
On our endless flight

The dreams became less  
The night had us under its spell  
We looked into our eyes  
It was a cold day in hell

All or nothing  
Till the lightning strikes again  
All or nothing  
It was a cold day in hell

On the horizon we saw smoke  
Coming out of the blue  
We saw the next level  
It was too good to be true

Strange colors surrounded us  
On our mission without hope  
But we don't understand  
We're walking the thin rope

All or nothing  
Till the lightning strikes again  
All or nothing  
It was a cold day in hell
