Quiet, still - with you here
I'm only happy when she dances
I was always caught,
But she's so invititious
Members invaluable, making me offers
Couldn't let this happen, but the worse come in

Here in the water, Here in the Red Light
We can walk unaided
Here in the water, Here in the Red Light
And all that's in between

Quiet, still - when you leave
I will wait for her advances
I was always cold
But she's so infected
Memories invaluable, making me offers
I couldn't let this happen, but the worse come in

Here in the water, Here in the Red Light
We can walk unaided
Here in the water, Here in the Red Light
And all that's in between

Here in the water, Here in the Red Light
We can walk unaided
Here in the water, Here in the Red Light
And all that's in between
