She wants the world to stop running  
So they can be far from here  
And if she makes it as something  
Will she have to play insincere?

Ooh, my, my, my, what have you done?  
Ooh, my, my, my, what have you been running from?

#### CHORUS

I move to keep up in the Urban pace  
In colour, in warmth  
In the air I feel his sorrow  
I move in time in the Urban space  
In colour, in warmth  
In the air I feel his sorrow

I feel his sorrow, I feel his sorrow

He keeps a track of his money  
What of the price they pay?  
What if she wants to get married?  
Will he be able to?

Ooh, my, my, my, what have you done?  
Ooh, my, my, my, what have you been running from?

#### CHORUS

I remember what it's like to be with someone  
I remember what it's like when it's two  
I remember how it was when I was little  
I remember how I felt about Family

#### CHORUS
