Love is a Fool
Love is a Fool

In this half-light, it didn't feel right
In this softness of skin to tempt you
In this warm haze, like the first days
When these actions of Love made memories

Love is a Fool (oh woah)
Love is a Fool

Well, come on late night, spin the lows high
And swing the veil over your face
I feel this breath tight, well come on black eyes
You send me over a sweet morning

Love is a Fool to say I'm sorry that it ended
Love is a Fool that treats you so unfair and common
Love is an Adversary full of foreign courage
Love is a Fool that changes face when I'm with you

Oh, oh - sweet memories
Is it ever an omen, why I'm still in here?

Love is a Fool (oh woah)
Love is a Fool
Love is a Fool that changes face when I'm with you
Changes Face
