

Primary "Step By Step"

Visit "[Step By Step](#)" on MotoLyrics.com

From where do we start again
To undertake the physical event of being Living?
And how many years are we going to claim
For keeping our emotions well hidden?
Is this the product of a fuller defense?

Ooh, you first with one foot facing West
You first, so I can follow bat by bat

With this step by step, follow with my heavy wood
friend
And mother, watch the weather. Keep yourself from
hiding again
With this step by step, follow with my heavy wood
friend
And mother, watch the weather. Keep yourself from
hiding again

How did you find out?
How did you come?
How could you be anything to anyone?

Ooh, you first with one foot facing West
You first, so I can follow bat by bat

With this step by step, follow with my heavy wood
friend
And mother, watch the weather. Keep yourself from
hiding again
With this step by step, follow with my heavy wood
friend
And mother, watch the weather. Keep yourself from
hiding again

OUTRO x4
Keep myself from falling into habit again
Cut myself off from this appetite

With this step by step
