This is the Sound, you won't let me out  
This is the Sound, you won't let me out

My flesh is red and raw, it makes me want to shout  
My mouth is open, but nothing will come out  
You won't let me go, You won't let me go

Your eyes are open, closed but you can see  
The life-long struggle, death to those who seek  
You won't let me go, You won't let me go

This is the Sound, you won't let me out  
I can't get your words out of my head  
You turn it around, you won't let me down  
And you try to break my up instead  
This is the Sound, you won't let me out  
I can't get your words out of my head

My heated anger clocks up one more degree  
Your eyes are open, closed but you can see  
You won't let me go, You won't let me go

Your love's demented, it's tattooed on your skin  
The wicked raincoat, the beast that yells within  
You won't let me go, no no  
Well, you won't let me go

This is the Sound, you won't let me out  
I can't get your words out of my head  
You turn it around, you won't let me down  
And you try to break my up instead

This is the Sound, you won't let me out  
I can't get your words out of my head  
You turn it around, you won't let me down  
And you try to break my up instead
