Needin' 2 surrender  
Needin' someone tender  
Someone who would show me what 2 do  
Knowing I was lonely  
U smiled upon me  
I'm alive and it's all because of U, U, U (All because of U)

All the time I wasted  
Hangin' out lonely places  
Lyin' was my way of gettin by  
Now my friends are long departed  
And I never finish what I started  
I was crippled, crawling in the dark

I believed in nothing until U took my hand  
U showed me just how good your love can be  
Now I feel so grateful 2 U 4 lovin' me  
Now I'm complete and it's all because of U  
Oh U (All because of U)

Your love keeps holdin' me 2gether (All because of U)  
I found a stronger love deep inside me (All because of U)  
And if U asked me 2 show how much I love U  
I'd give my life 2 show U  
I'd do it all because of...

U gave me what I needed  
And um.. anyone could see it  
But I was passin' on and goin' fast (Passin' on and goin' fast)  
U wrapped me in your sweetness  
And your love started me healin'  
U filled my soul with love that's gonna last

Yes, I believed in nothing until U took my hand  
And I found my way and it's all because of U, oh U  
(All because of U) {repeat in BG}  
Your love keeps holdin' me 2gether  
I found a stronger love deep inside me

And I believe there's someone there 2 guide me yes  
I don't need 2 do the things I used 2 no ... no, no  
U showed me how 2 love and I thank ya (And I thank U)  
I thank U, thank ya (Yes, I thank U)  
U're everything I want, everything I need (All because  
of U)  
All because of U  
And if U asked me 2 show how much I love U  
I'd give U my life all because of U ... oh yes

I'd give it, all because (U gave me what I needed)  
Because of your sweetness (U gave me what I needed)  
Mmm, because of your love (All because of U) (U gave  
me what I needed)  
U showed me how 2 love  
I went blind, I couldn't see (U gave me what I needed)  
U came and threw your arms all around me (U gave me  
what I needed)  
And U rescued me  
All because of U ... hey
