The sky looks like it's turnin'
Turnin' from blue 2 black
Still I feel the sun is burnin'
Hot monkey on my back
Am I in a speeding car?
Am I lying in your bed?
One kiss from U is all that I do
And I'm outta my head (My head, my head)
Bliss
This is heaven, I swear 2 God
Wish that I could spend everynight with this feeling
some more
Bliss
Just as sure as this lighted candle
I can handle anything
Don't hold nothin' back
2night baby, U're the king
Birds are singin', mindbells are ringin'
I can see everything
We should take a moment
2 praise the heavens above

Every man should be so lucky (So lucky)

So lucky 2 be in love

Bliss

The sky is turnin'

Turnin' from blue 2 black (Black)

Bliss

Can't U feel the sun burnin'?

Hot monkey on my back (Back)

Get off!

Am I in a speeding car?

Am I lying in your bed?

One kiss from U is all that I do

And I'm outta my head (I'm outta my head)

Oh bliss

This is heaven, I swear 2 God

Wish that I could spend everynight with this feeling
some more

Oh bliss

This is heaven, I swear 2 God

I wish that I could spend... this feeling, this feeling

Oh bliss

This is heaven, I swear 2 God {fade out}

Wish I could spend everynight, all night with this
