Breathe {x3}

Take me into the deepest part of your emotion - breathe
Whisper again the destination U wanna go - breathe
Slowly I drink the cascading energy that runs down your hillside
Baby, baby, breathe

Breathe in, breathe out
Slow, slow, breathe
Breathe in, breathe out
Slow, slow, breathe

Ever and ever it seems like we never
Stop what U want me 2 do (Want me 2 do)
360 degree slippery circle
The moaning it's gotta rough... ohh, um (Breathe)
Breathe, baby

Passionate fashion of tongue that keeps lashing
On skin like a whip, ooh
Breathe in, breathe out
Slowly, slowly, ooh
