Cunning liar, eternal fire

Demon clever, promise 4ever

The curious try and always die

Live in fear, the devil is near

Can U feel his breath? Pray 4 death

The curious try and always die

"U men point those search lights up on the tower right
now - move, move!"

Have no Savior, have no faith

Never look 4 Heaven's gate

Devil's children, no love inside

There is a soul, but it has died

Devil's children, no love inside

There is a soul, but it has died

And it cries, and it cries

CHORUS:

Dance with the devil in the pale moonlight

Put your arms around him and hold him tight

Give up 2 the feeling and don't try 2 fight

He wants your soul and he wants it 2night

Dance with the devil in the pale moonlight

Put your arms around him and hold him tight

Close your eyes 2 love and die

Dance with the devil in the pale moonlight {sampled till
end}

"U know, without U I just wouldn't wanna go on"

CHORUS {x2}

Dance with the devil in the pale moonlight

Put your arms around him and hold him tight

"It's as though we were made 4 each other

Beauty and the Beast

Of course if anyone else calls U Beast

I'll rip their lungs out"

Dance with the devil in the pale moonlight

Put your arms around him and hold him tight
