Yeah) {sample repeats throughout song}
Uh, get on up now {x2}
(Move) {sample repeats throughout song}
Move it {repeat throughout song}
(Get on up) {x2}

Feel the vibe and let's move it
Never losing out the funk that we got
Think that U can hang? Why don't U just prove it?
Come on and take a chance with me and why not?
I see 1, no 2, no 3, 4 on the dance floor
Gonna give U more of what U want 4 damn sure
Skip the talk and just dance
And if it's 2 much then get the lead out your ...
Ask me no questions and I'll tell no lies
Crank it up, it just amplifies
I'ma dance, I'ma dance 'til I drop
This the jam y'all, get on up

(Get on up) Get on up now
(Get on up) Get on up now
(Get on up) Uh, get on up now
(Get on up) Yeah, get on up now

Can I get a witness with this funk with the quickness?
Microphone swiftness is my business
Checkin' out the brothers with the funky stride
U don't wanna dance honey, drip step aside
As I move 2 the left can I get a little (funk)?
As I move 2 the right can I get a little (funk)?
2 times in the center as I kick a riddle
My name is Carmen Electra and I ain't in the middle
This kind of funky beat is what I dream
So if U want 2 get a feel of this cream
Hop 'til U damn near drop
This the jam y'all, get on up

Uh, get on up now
Uh, get on up now
Yeah, get on up now
Uh, yeah, get on up now

We're gonna dance, dance, dance
Dance, dance, dance

All aboard, all aboard cuz I'm gettin' funky
As U know, as U know I'm a party junky
Gettin' live 2 the rhythm cuz I want 2
Tryin' 2 spread it cuz everybody else ought 2
Clap your hands, clap your hands like U really wanna
Get the wallflower people all out of the corner
How many times I gotta stop the clock?
Cuz this the jam y'all so get on up!

Dance, dance, dance
Dance, dance, dance 2 night

Get on up now
(Get on up) Get on up {x3}
(Get on up) {x8}
