All U need is Judy, she's good 4 U

(U bad sister) {James Brown sample repeats in BG}

How do I start off, what can I say?  
Who makes U happy each and every day?  
Who makes U happy each and every night?  
When we're 2gether, who makes things right?

Big words escape U when U think of me  
No words can evaluate this mystery  
U could be so tired, find it hard a-walkin'  
But I could get U wired, get your body talkin'

CHORUS:

Long as U got me, all things alright  
It don't take a lot, see, and U're wound tight  
In the middle of the day, babe, in the middle of the  
night  
Long as U got me, all things alright

There ain't no other junk that U wanna do  
All U need is Judy, she's good 4 U  
How simple can I make it, I just want U 2 take it  
Rattle, roll and shake it, Judy gonna do ya, ooh

CHORUS
