I got 7 hours, baby
So what'cha wanna do?
(Ooh, I wanna melt with U)
(Ooh, I wanna melt with U)

This is safe sex
(Ooh, I wanna melt with U)
New power generation style
A funky little story about you and me
(Ooh, I wanna melt with U)
Gettin' busy for awhile

From the tip of my typhoon
(Ooh, I wanna melt with U)
To the bottom of your ankle chains
We gonna shake and shake and shake
Until we're both deranged with endorphins
This is the ultimate rave
Ooh, I wanna melt with U
S to the S

Slow and slippery, groovy
If we bathe in each other's hips
In other words, get close enough to stick
And I'll melt with you, and you can melt with me too
And we'll groove and groove until the earth moves
I want to melt with U, yeah

Don't look now, but there's a river of blood
You must have been a virgin
What am I guilty of? Oh no, oh no
Are you afraid? Then take me to the next phase

Slow and slippery, groovy
If we bathe in each other's hips
In other words, get close enough to stick
(Oh yeah)
And I'll melt with you, and you can melt with me too
(Melting)
And we'll groove and groove until the earth moves
I want to melt with U, yeah
(Hit me)

I'm thinkin' about the quivery ocean
And drippin' all over your every motion
And thinkin' about the way that you kiss
I'm thinkin' about some of this

And I'm thinkin' about some of that
And then my backbone slips
And my lips just drip
And then the hips just whip and whip and

Yeah, do that baby
Yeah, do that baby
Yeah, do that baby, just like a dog

(Ooh, I wanna melt with U)
Yeah, do that baby, just like a dog
(Ooh, I wanna melt with U)
Yeah, do that baby, just like a dog

Slow and slippery, groovy
If we bathe in each other's hips
(1, 2, 3, 4, 5, 6, 7)
I want to melt with U
And I'll melt with you, and you can melt with me too
And we'll groove and groove until the earth moves
(1, 2, 3, 4, 5, 6, 7)

Melting, melting, melting

Slow and slippery, groovy
If we bathe in each other's hips
In other words, get close enough to stick
And I'll melt with you, and you can melt with me too
And we'll groove and groove until the earth moves
