Well
My my my

When U're down and out and U need some consolation
U just call on me and I'll be there 2 see U through
When indecision clouds your mind
Looking 4 a choice and I won't leave U far behind

I'll be your source of inspiration (Yes, I will)
He said, have faith in me (Have faith in me)
The wind that will chase the clouds away
I'll be right there

Play on it
Yeah

In a troubled world full of lies and variation
We need 2 know that there's a light that shines our way
And lead us through the turmoil of dissention
And lift us up, help us 2 face another day

I'll be your source of inspiration
(Oh yes, that's what U mean 2 me)
He said, have faith in me
(Have faith, have faith in me)
The wind that will chase the clouds away
(He'll be the wind, chase the clouds away)
I'll be right there
(I'm gonna be right there 4 U)

I'll be your source of inspiration
He said, have faith in me (He said it all)
The wind that will chase the clouds away
(The winds chase the dark clouds away)
I'll be right there
(I will be right there, yes I will)

If U ever need a friend, one on whom U can depend
I will comfort U, keep me in your heart and your soul
And if U ever don't know where 2 go, just call on me
And I'll be sure 2 let U know I'm your friend

I'll be your source of inspiration (I am)
He said, have faith in me
(About the size of a mustard seed)
The wind that will chase the clouds away
I'll be right there

I'll be your source of inspiration
(I'll be the one U can depend on)
He said, have faith in me
(If U just believe and have faith in me)
The wind that will chase the clouds away
(I'll be the wind that'll chase your dark clouds away)
I'll be right there
(Yes I will, yes I will now) (Whenever U need me)

I'll be your source of inspiration (Say it loud)
He said, have faith in me (Uh-huh, uh-huh)
The wind that will chase the clouds away
I'll be right there

I'll be your source of inspiration {fade out}
He said, have faith in me
(Faith about the size of a mustard seed)
The wind that will chase the clouds away
I'll be right there (I'll be, I'll be there)
