In your gracious name {x2}

Dear Glory, in your gracious name
Forgive those who do not know
This precious joy so beautiful
That only Love could ever show
All that ever was before and all that ever will be
Lives because of your Love, that one day we'll all be
free
Forgive those that doth envy and call us out of our
name
Forgive those who without justification inflict upon us
pain
We who know a thousand fold the sins of casting
stones
Mercy upon us that we might leave the stone alone

CHORUS:

In your gracious name
Hold me now, 4 ever I will be
In your gracious name
In your heavenly power lovin' ecstasy
I will be, I will be

Dear Glory, in your gracious name
Take over my subconscious
Let me feel the gush my lover feels
When the rocket launches
Let me know the other lives I've led before
Glory in your gracious name, I want more
I want more (More)

CHORUS

Glory 2 your gracious name

Por tu nombre bendito te alabamos Senor
{By your name blessed we praise U Lord}
Te damos gracias {We thank U}
Te adoramos {We adore U}

Glory 2 your gracious name

In your gracious name

He who gives me strength 2 get through another day

(In your gracious name) In your gracious name, oh

Hold me now, 4 ever I will be

(In your gracious name) In your gracious name

In your heavenly power lovin' ecstasy {looped}

In your gracious name (In your power)

4 ever I will be

In your heavenly power lovin' ecstasy (Lovin', lovin',

lovin' ecstasy)

In your gracious name

In your heavenly power lovin' ecstasy {x2}

In your gracious name

In your gracious name
