Carmen

"What U gonna play now?"

(Tasty) {repeat throughout song in BG}

(Let me ..)

Just a little lovin' early in the mornin'

Mmm, mmm

Flavors - so many flavors 2 choose from
All delectable in their way, it's very hard 2 choose just
one

So as I think slowly and try 2 decide

Out of all the lovely treats, just which one am I?

It's hard 2 say cuz I'm a special blend

People will try 2 put me in

A category 4 which there is no room 4 expansion

Don't U see that move is doubtful?

Because the fruit is bountiful

Turn me over slowly and I guarantee a mouthful

Just a little lovin' early in the mornin'

Easy does it, take your time

Tasty - now U know the meaning of the line

Just a little lovin' early in the mornin'

And now that U've had a taste, could U waste a
dropful?

Of a nectar so sweet guaranteed 2 keep U youthful

A hot tasty hors d'oeuvre

Or better yet, what would U prefer?

Hot fudge over ice cream topped with whipped cream?

Passion is in the fruit and I can't stand it

If it could be bottled, people would be demanding it

And that would be just 2 scandalous

Just a little lovin' early in the mornin'

So as I simmer basted with a touch of honey 2 give me
a glimmer

Or should I say shimmer of sweetness
Pound 4 pound I can see no weakness
(Oh glory) Glory 2 the Father
If U think U're praising me then don't even bother
Excuse me, I don't think they heard me
Turn it up a little louder
Cool - here we go

Just a little lovin' early in the mornin'

Hmmm, I'm feelin' effervescent, refreshed, lively
Never mind - girlfriend over there who despises me
She doesn't even know my name
That's OK, U should have an attitude when U play this
game
These days it's very hard 2 be chosen
Cuz most of us try 2 play like ice cubes frozen
But that'll get U nut n' honey
Guitar man, give me something yummy

Just a little lovin' early in the mornin' {x3}

So as the aromas fill the room
And the smell of sugar and cinnamon looms
Aromatic in its blend
And there's plenty 4 U 2 choose from on the menu my
friends
So take your time
And every now and then try something different and
U'll find
Variety is the spice of life that keeps it finger-lickin'
Ah, that wasn't no ordinary chicken
Ha, ha, ha, U better believe it
And at this moment I think it's time I release it
Peace (Mmm)

Just a little lovin' early in the mornin'
(Let me kick it)
Just a little lovin' early in the mornin'
