Everyday I used 2 watch U pass my house on the way 2  
school  
My heart skipped 4 beats checking out the way your  
body moved  
No one can walk the way U do, it's so cool (So cool)  
Imagine how I felt when I saw my best friend with her  
arm around U

Love's no fun when the one U love don't love U

I went 2 a movie show, the only place that I could go  
away from U  
I seem 2 see your face in every part of my life, no  
matter what I do  
But there U were 4 everyone 2 see, kissing like fools  
I covered my face and pretended that I didn't know  
what I knew

That love's no fun when the one U love don't love U, oh

I go 2 bed early every night so I can dream  
Of another space and another time when U belonged 2  
me  
And in my dreams U talk 2 me whispering oh so sweet  
(So sweet)  
U promised that if I'm always there 4 U, U'll be there 4  
me  
(With U, with U)

And then I wake and say that love's no fun without U  
(No it ain't, no no)

Love's no fun when the one U love don't love U  
(I don't wanna be without love)  
Love's no fun when the one U love don't love U  
(Do U hear me, do U hear me?)  
Love's no fun when the one U love don't love U, oh
